Bid Solicitation: Venture Advisor to Facilitate Public Sector Scaling of Innovations

**Submission Deadline:
February 9, 2020 5.00 pm ET**

RFP Reference Number: RFP-VA-2020-01-20

Introduction

GRAND CHALLENGES CANADA'S OBJECTIVE

Grand Challenges Canada is dedicated to supporting Bold Ideas with Big Impact®. Grand Challenges Canada is seeking a Venture Advisor to help us facilitate the uptake of tested maternal, newborn and child health innovations by local governments for the purpose of saving and improving lives at scale.

Grand Challenges Canada has supported 1200+ innovations to date across 85+ different low- and middle-income countries. These innovations are a mix of products and services, and they employ various pathways to scale and sustainability. Regardless of the type of innovation or pathway to scale and sustainability, most innovations require some form of uptake by the public sector in order to achieve scale and sustainability.

Several innovations supported by Grand Challenges Canada have been successful in being adopted by local governments. We acknowledge that adoption has required both savvy innovators and sufficiently mature innovations ready for this step, as well as demand by the local government for the innovation. **Here, we are interested in understanding and testing potential opportunities for Grand Challenges Canada to catalyse more systematic demand for matured innovations by local governments to improve maternal, newborn and child health, and sexual and reproductive health and rights.** Please see *Public scaling advisory support for maternal, newborn and child health innovators in low- and middle-income countries (RFP: RFP-VA-2020-01-21)* through which we are sourcing Venture Advisor support to help innovators to successfully develop and/or implement public sector scaling strategies, and ultimately increase the impact of Grand Challenges Canada's investments with the purpose of saving and improving lives at scale.

Organizations with existing capacities and activities that facilitate the public sector scale of innovations are encouraged to apply, as are those who can play intermediary roles that leverage the capacity of multiple organizations in the ecosystem.

The objective of this "**Bid Solicitation**" is to select a candidate to enter into a contract with Grand Challenges Canada to provide the services described in the Statement of Work, attached hereto as Appendix A. Appendix A: Statement of Work

A. Title

This Bid Solicitation seeks to engage an individual or team for hire in the role of:

- Venture Advisor, Public Sector Scaling

B. Scope of Work

The Venture Advisor, Public Sector Scaling will be responsible for identifying and testing possible approaches for Grand Challenges Canada to facilitate the public sector scaling of maternal, newborn and child health (MNCH) and/or sexual and reproductive health and rights (SRHR) innovations we have supported to transition to scale.

We anticipate the Work will be performed over two phases:

Phase 1: Using their existing expertise and networks, the successful Bidder will identify a suite of possible approaches for Grand Challenges Canada to facilitate public sector scaling of MNCH and/or SRHR innovations that best fit the following design criteria:

- Limit the burden on lead innovators;
- Limit the burden on local government staff;
- Expedite current approaches to financing adoption of innovation by governments;
- Build off of existing capabilities in organizations who play critical roles in the health, development and public sectors in low- and middle-income countries with whom Grand Challenges Canada can partner;
- Is relevant to more than one low- or middle-income countries; and
- Are feasible for Grand Challenges Canada to implement with no / limited increases in internal human resources.

It is expected that the Venture Advisor, Public Sector Scaling arrives at the suite of possible approaches through a review of relevant literature, a landscaping of organizations in the development, health, and public sector ecosystems that play a role of supporting governments to adopt new approaches, and interviewing of key informants in these organizations to understand how their actions could be leveraged to catalyse public sector uptake of Grand Challenges Canada supported innovations.

Grand Challenges Canada staff and advisors will be involved in determining which approach, if any, to test in Phase 2.

Note: We will not fund extensive landscaping exercises. We expect this work to rely heavily on the Bidder's previous work, experience and networks. Phase 1 should require a minority of the proposed budget.

Phase 2: To help Grand Challenges Canada test the effectiveness of possible approaches to facilitate public sector scaling of innovations. It is expected that this will involve the Venture Advisor, Public Sector Scaling using select innovations emerging from Grand

Challenges Canada's innovation pipeline as test cases. The testing should help us to understand the relative effectiveness of approaches to create the following type of changes:

- Increase in awareness of select innovations and their alignment to local priorities by decision makers within public sector;
- Increase in engagement of public sector staff in the design, implementation or promotion of select innovations;
- Change in policy or procurement approach that creates greater demand for select innovations;
- Decrease in time or effort to procure innovations that have been tested by other public systems;
- Allocation of budget to fund the implementation of select innovations; and
- Statements of political will to support the scale and sustainability of select innovations.

The Venture Advisor, Public Sector Scaling will be expected to leverage significant existing resources and capacities. We will not fund significant capacity building within organizations in order to conduct this Scope of Work.

C. Deliverables

- **Phase 1:**
 - A short, **written report** that introduces the possible approaches for Grand Challenges Canada to facilitate public sector scaling of innovations, and an assessment of each approach against the design criteria.
 - **Presentation** of the findings and the possible approaches to facilitate public sector scaling of innovations to Grand Challenges Canada staff and advisors to inform decision making about a subset of approaches to test.
 - A **workplan** of how the subset of approaches could be tested, including proposed evaluation approach, in Phase 2.
- **Phase 2:**
 - Regular **updates** on the implementation of approved workplan.
 - A short, **written report** that discusses the effectiveness of each tested approach and recommended steps forward for Grand Challenges Canada.

Overview of Support

The selected Venture Advisor, Public Sector Scaling will report to Dr. Karlee Silver, Co-Chief Executive Officer of Grand Challenges Canada, and will define the process and implement the infrastructure needed to provide the contracted services.
