The Platform teams will be expected to use lessons and best practices arising from the Global Mental Health innovations to both improve the success of the Global Mental Health innovations, and to inform the wider community of innovators/learning, as well as external stakeholders.

The Platform supports could include but is not limited to: one-on-one venture advisory services (leadership building, communication support, government engagement tools, business mentoring and advice, monitoring and evaluation support), introductions to key networks and opportunities, online community platforms, face-to-face networking and co-learning group meetings.

The objective of this “Bid Solicitation” is to select a candidate to enter into a contract with Grand Challenges Canada to provide the services described in the Statement of Work, attached hereto as Appendix A. All bidders (“Bidders”) are invited to bid (“Bid”) for consideration by Grand Challenges Canada in accordance with the terms of this Bid Solicitation.
Part 1: General Information

1.1 Objective

a. The objective of this Bid Solicitation is to select a vendor(s) to enter into a contract with Grand Challenges Canada to provide the services described in the Statement of Work attached herein as Appendix A in a manner that will provide the best value for Grand Challenges Canada’s funds.

1.2 Period of Contract

a. The terms of the resulting contract will be from approximately **August 2020 to April 2022** [with the possibility of renewal or extension for successive a one-year terms up to a maximum of three times, depending on the needs of Grand Challenges Canada].

1.3 About Grand Challenges Canada

Grand Challenges Canada is dedicated to supporting Bold Ideas with Big Impact® in global health. Funded by the Government of Canada and other partners, Grand Challenges Canada is driven by the mission to catalyze innovation that saves and improves the lives of the most vulnerable in Canada and low- and middle-income countries. One of the largest impact-first investors in Canada, Grand Challenges Canada has supported a pipeline of over 1,000 innovations in 95 countries since its creation.

**Background: Global Mental Health program**

Poor mental health is a fundamental threat to the rights of the world’s poorest and most vulnerable citizens. Strategies to identify and treat mental health challenges that are successful in higher income countries are often impractical, ineffective, and too resource intensive to succeed in low- and middle-income countries and with vulnerable populations. About three quarters of the global burden of mental illness is borne by populations in low resource settings, and yet only a small fraction of mental health needs (~10%) are met in those contexts, where scarce resources and a shortage of trained professionals limit access to evidence-based approaches to address mental health.

Recognizing this profound challenge, over the past five years, Grand Challenges Canada has supported one of the largest portfolios of global mental health innovations in the world, investing $43.8M CAD to support 95 projects across more than 30 low- and middle-income countries. The current Global Mental Health program will build on past successes to help the most promising global mental health innovations transition to scale, and will put a stronger emphasis going forward on the mental health of youth, and in particular girls and young women who are disproportionately affected by common mental disorders.
There are two funding streams currently available in the Global Mental Health
challenged: Seed funding supports the development and validation of innovative
ideas, offering up to $250,000 CAD over up to twenty-four months, and Transition
To Scale funding which supports the refinement, testing, and implementation of
innovative solutions that have already achieved proof of concept to bring them
toward scale and sustainability. Grand Challenges Canada currently offers up to
$1 million CAD in Transition To Scale matched funding over 2-3 years through
grant and non-grant funding mechanisms.

Timeline for Global Mental Health Innovators:

The Global Mental Health program is issuing a new call for proposals for seed
grant projects (between 10 and 15 new grantees), anticipated to start by March
2021 and lasting approximately 18-24 months each.

Transition To Scale projects are brought forward to the Grand Challenges Canada
Investment Committee and Board of Directors for funding consideration on a
rolling basis, with approximately 2-3 new Global Mental Health investments
considered each quarter. These projects can last from 1-3 years.

In order to support this growing community of seed and Transition To Scale
innovators, Global Mental Health program is seeking to contract Global Mental
Health Platform support.

A. Title

This Bid Solicitation seeks to engage an individual for hire in the role of:

- Global Mental Health Platform
- Youth Support Platform

B. Scope of Work and Deliverables

The Global Mental Health Platform will be expected to:

1. **Enable individual projects within the Global Mental Health program to work towards and achieve sustainable impact at scale**

   - Maximize the potential for success of projects to achieve impact and scale. This could include supporting projects to develop strong implementation strategies, developing theories of change, using Integrated Innovation, and applying fast-cycle learning.

   - Create the resources and provide support to innovators to demonstrate the impact of their innovations: Support innovators in the development and execution of rigorous monitoring and evaluation frameworks, selection and use of appropriate metrics and assessments that can best demonstrate the impact of their innovations on mental health; support innovators to identify and apply metrics that could refine their intervention or could influence stakeholders’ interest (e.g., government, private sector, other public sector players, etc.) in later uptake of the innovation at scale; support innovators to develop and apply rigorous data analysis plans, keeping in mind key core metrics; help innovators communicate the results of their intervention to relevant audiences; determine the return on investments to support the long term uptake and scale of innovations.

   - Develop the resources and provide support needed for effective and evidence-based innovations to achieve uptake at scale: Seed grants should be “investment ready” by the end of their grants (i.e. be well-placed to apply to the Transition To Scale program, and/or to obtain support from external stakeholders and funders). Innovators may require support identifying and establishing smart partnerships, developing government engagement strategies, developing and implementing financial sustainable models or fundraising strategies, and identifying and developing team capacities needed for their innovations to scale.
Anticipated distribution of resources across activities: 20% Seed, 30% Transition To Scale; Total activity 50%

2. Collect lessons and best practices arising from the Global Mental Health community of innovators to improve the success of the Global Mental Health innovations and to inform the wider community of learning

Includes the development and execution of periodic in person innovator learning meetings.

- Develop and relaunch the Global Mental Health learning track at annual Grand Challenges meetings to inform the wider Grand Challenges network.

3. Track and disseminate the individual and collective impact of Global Mental Health innovations within the community and to relevant external stakeholders.

- Effectively communicate and disseminate the impact of the Global Mental Health innovations across Global Mental Health internal and external stakeholders, including policy makers in order to push mental health as a priority area.

- Attract investors and smart partners (private, non-governmental, and government) to support the scaling of Global Mental Health innovations.

- Collect and synthesize information to articulate the collective impact of the portfolio of Global Mental health innovations against relevant agendas (e.g., WHO Comprehensive Mental Health Action Plan).

Anticipated distribution of resources across activities: 20%

The Youth Support Platform will be expected to:
1. Support the funding of youth-led organizations

- Develop a plan to support a number of youth-led organizations as autonomous innovators within the Global Mental Health program.

- Create the resources necessary to empower and support youth-led organizations to implement innovations within the Global Mental Health program, including: work with youth-led organizations to build organizational and individual capacity, develop any necessary policies and frameworks, provide technical expertise as needed to roll out programming, develop strong implementation plans; support youth-led organizations to develop partnerships and continue to secure funding in order to ensure sustainability.

- Support youth-led organizations to develop and apply rigorous data analysis plans, including rigorous monitoring and evaluation frameworks and the use of appropriate metrics. Help youth innovators communicate the results of their work to relevant audiences including government, private sector and other public sector actors.

Anticipated distribution of resources across activities: 10%

**NOTE:** The percentage allocations are to indicate the initial proposed distribution of resources across the above goals only and are not final. Grand Challenges Canada will finalize this based on the proposals and comments received.

The contractor will be required to communicate over email, phone or meet face-to-face, as needed. We expect the majority of the engagement between the platforms and the Global Mental Health innovators will be conducted through audio/video conference with periodic in person innovator community learning workshops.

**Overview of Support**

The selected Global Mental Health Platform and Youth Support Platform will report to Grand Challenges Canada and will define the process and implement the infrastructure needed to provide the contracted services.
